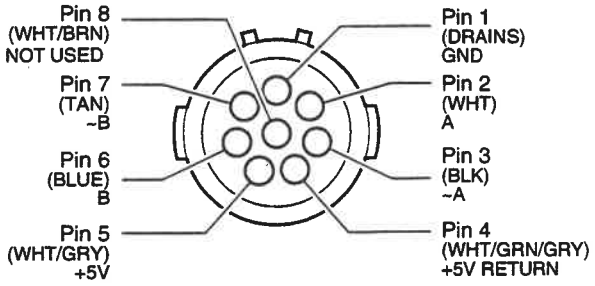
HP 10887-60202 A-Quad-B Cable Assembly

This 3-meter (10-foot) cable connects your machine's A-Quad-B encoder output to HP 10887A PC calibrator board's A-Quad-B input port.

The cable is supplied with a mating connector for the HP 10887A board on one end. The other end is unterminated, allowing you to make the connections you need for use with your machine's encoder. The cable's signal-versus-pin connections are listed below.

Connector Front (mating side)



Connector Rear view (wire side)
